WHAT CAN MY FAMILY EXPECT AFTER AN IN-HOME SERVICES REFERRAL?

One of our skilled family support specialists will contact your family within 6 hours to schedule your first in home visit.

On your first visit, your family along with a Family Support Specialist will create your own specialized family-centered service plan. This service plan will target the risk areas identified by your CPS Case Manager and may include:

- Risk Reduction
- Behavior Modification
- Budgeting, organizing, parenting skills, chore charts, and much more!

After your first visit, your family and your Family Support Specialist will meet 3 times per week until you, your Family Support Specialist, and your case manager decide to step down services. Our services are offered for a total of 4 months for each referral.

Child & Family Resources In-Home Services offers strength based, family-centered support to your family to keep your family together!

In-Home Services is a program of:

in partnership with
Arizona Partnership for Children (AZPAC)
