9am to 12pm

Sponsorship & Underwriting

Why Support Child & Family Resources?

Child & Family Resources (CFR) is a community-based nonprofit empowering Arizona's children, youth, and families to thrive. For over 56 years, we've strengthened families through programs that support early childhood development, mental health, wellness, and strong family connections.

Blooming Communities is a family-friendly block party hosted by Child & Family Resources on Saturday, April 3, 2027, at our Tucson headquarters. Families, local businesses, nonprofit organizations, and community partners will come together for a morning of games, music, fun activities, and valuable community resources.

The event creates a welcoming space for families to spend time together, discover local programs and services, and connect with organizations that support children and families throughout Southern Arizona.

Blooming Communities also serves as the kickoff to **Child Abuse Prevention Month**, raising awareness about the importance of prevention and the role we all play in keeping children safe. By bringing our community together, we can highlight the importance of strong family connections, accessible resources, and supportive relationships that help children and families thrive.

Why Sponsor?

- **Make a difference**: Support local children and families and promote child abuse prevention.
- **Increase visibility:** Showcase your business to families and community members.
- **Build connections:** Network with local businesses, nonprofits, and community partners.
- **Support a meaningful cause:** Help kick off Child Abuse Prevention Month and connect families with valuable resources.

Together, we help families thrive and communities grow stronger.

Your underwriting support will not only offset a specific element of our Blooming Communities event and allow us to direct more funds to our life-changing programs, but it will provide you with a unique opportunity to promote your company and show your commitment to supporting at-risk children and families in Arizona.
